Mr. Karns,

Thank you for the information yesterday. Per my records, Mr. Walt Griffin, advised on 7/19/2011 @ 10:14 am that the OHS Touchdown Club Inc was being dissolved. The public record of which I am attempting to "inspect" may not be in an email form. I would think that it would be a simple matter to obtain this record if there is one by contacting Mr. Griffin or Mr. Linquist and asking them if this new policy was communicated in writing or only verbally.

If they advise that there is nothing in writing then there would be no need to conduct any research and no need for \$80.00 to cover the cost of this research. I will attempt to contact the individuals in order to determine how this new policy was presented to Mr. Allen, Ms. Lougee and Ms. Long.

I am sure that Mr. Linquist is very familiar with this matter due to fact that he received a call from Judge John Galluzzo on or about 8/25/2011 in reference to his name as a registered agent on the corporate records being submitted by Ms. Lougee without his permission. Per Judge Galluzzo he has not been connected with the OHS Touchdown Club since he became a Judge @ 6 Years ago.

Please advise me if I need to contact all of the individuals involved in order to determine if such a public record is in possession of the Seminole County School Board.

Your attention to this matter is appreciated.

Sincerely,

Jeffrey K. Frazier

Ms. Force,

Yes this is correct. From the information provided by your attorney, I was advised that this is the new policy. But the "holding positions" applies to their status as corporate officers. (i.e. President, Vice President, Secretary, Treasurer.), not as volunteers.

On a separate issue, are your financial records set up in a manner by which all contributions made by a specific entity, such as the O.H.S. Touchdown Club Inc., can be verified? Based on your reply and the cost associated, I will advise if I require these financial records at that time.
